Raw Material Shopping List

## SURFBOARD LENGTH

6' | 6'6" | 7' | 7'6" | 8' | 8'6" | 9' | 9'6" | 10' | 10'6" | 11' | 11'6" | 12'+

- All quantities above are approximates for FGH brand product formulations.
- We recommend any surfboard with a finished width of 21" or more purchase 30" cloth width.
- § Used to cure both laminating resin and surfacing agent to create sanding resin. Will be enough for both products.
- Typical Catalyst (MEKP) Ratio is 3oz per gallon or 2% (high-end).
